

PROFINISHERTM BY HUTCHINS

*Cutting-Edge American Made Technology
at an Import Price!*

Ergonomically engineered trigger assembly for added comfort and reduced operator fatigue

Designed to direct cold exhaust air away from the operator

500 with 3/32" offset
(blue air inlet)

600 with 3/16" offset
(red air inlet)

Compatible with
5" & 6" pads

Easy to replace drop-in motor assembly to reduce down time.

Cylinder and housing construction combined with five vane composite motor insure maximum performance with low air consumption.

*Hutchins ProFinisher Sanders
deliver unequaled performance and
longevity at a competitive price!*

Specifications

Country of Origin: USA • 12,000 RPM • 10.7 CFM • 6" Standard PSA Pad, 5" available
5" & 6" Hook Type pads available • Air Connection: 1/4" • Horsepower: .25 • Vibration: < 2.50*
Noise emission: 81dBa (models 500, 600, 520, 620)* 84 dBa (model 510, 610)*

*NOISE AND VIBRATION

The noise and vibration values stated are from laboratory testing in conformity with stated codes and standards and are not sufficient risk evaluation. Values measured in a particular work place may be higher than the declared values. The actual exposure values and amount of risk or harm experienced to an individual is unique to each situation and depends upon the surrounding environment, the way in which the individual works, the particular material being worked, work station design, as well as upon the exposure time and the physical condition of the user. Hutchins cannot be held responsible for the consequences of using declared values instead of actual exposure values for any individual risk assessment.
